Press Release

TEC Group Swiss continues its development with the integration of Transcendance

Vallorbe, Switzerland – June 10th, 2026 – We are proud to announce the integration of Transcendance into TEC Group Swiss.

For more than ten years, Transcendance has established itself as a reference in watch decoration, developing craftsmanship recognized by the most prestigious Swiss watchmaking houses.

This acquisition is fully in line with our strategy: bringing together, within a single group, the finest talents and the sharpest expertise of the Swiss watchmaking industry.

Beyond technical skills, we found in Transcendance a corporate culture, a commitment to quality and a passion for detail that perfectly reflect the values of TEC Group Swiss.

We are particularly pleased to welcome Rémi Lacoste, Nuno Rodrigues de Sousa and the entire Transcendance team to this collective journey.

The company will continue its development under the leadership of its current managers, who also remain shareholders alongside TEC Group Swiss – ensuring continuity, proximity to its clients and the preservation of the DNA that has driven its success.

With this new milestone, TEC Group Swiss, together with Sienna Private Equity, further strengthens its ability to support the leading watch brands through an ever more comprehensive offering and a reinforced command of strategic know-how.

Welcome to the entire Transcendance team.

The future is built together.

About TEC Group Swiss

Founded in 2008 by Arnaud Faivre, TEC Group is a leading independent supplier to the Swiss luxury watchmaking market. Bringing together eleven companies under one roof, TEC provides a full spectrum of industrial capabilities including component manufacturing, precision turning, design and production of movements and decoration. The Group is recognized for its craftsmanship, unique expertise, and long-standing partnerships with the most prestigious watch brands.

About Transcendance

For over ten years, Transcendance has specialized in high-end watch decoration, serving the most prestigious Swiss watchmaking houses. Led by Rémi Lacoste and Nuno Rodrigues de Sousa, the company is recognized for its commitment to quality, its passion for detail and its exceptional craftsmanship.

About Sienna Private Equity

Sienna Private Equity ("SPE") is a European mid-market private equity fund, with offices in Paris and Milan and a team of ten professionals. The fund invests alongside managers and founders in the business services, leisure and niche industrial sectors.
